LC-POWER

LC5450 V2.3

Silent Series

The SILENT SERIES by LC-POWER offers a good price-performance ratio: thanks to its 120mm fan, the LC5450 V2.3 lets you experience a stress-free and silent work in your office as well as at home. Despite the low sound level, the power supply offers a good cooling capacity for your system thanks to its ventilation grille on its back.

The power supply features all current connectors of the office and mid-range sector. Besides current mainboards you can connect several SATA and PATA hard disk drives respectively optical drives. A floppy disk drive can be added as well as a graphic card with PCI-Express.

The energy saving technology of the board decreases the power consumption in standby mode (<1W) and increases the efficiency of the power supply up to 80%.

Including PFC (power factor correction for an efficient use of the spent energy) and all relevant safety circuitry.

Connectors:		Barcode:	4260070122118	Power rating:
1x 20+4 pin mainboard	50cm	Mark of conformity:	TÜV, CE	+3,3V: 28A
1x 4+4 pin mainboard 12V (EPS)	50cm	Fan:	120 mm	+5V: 26A
1x PCI-Express 6 pin	50cm	PFC:	passive	+12V1: 13A
4x SATA	2x 50/2x 65cm	Weight (retail):	1,808 kg	+12V2: 14A
2x PATA	2x 80cm	Dimension:	85 x 150 x 140 mm	
1x FDD	90cm		(h x w x d)	450W max.

Characteristics: without power switch & power cable
